

Creating Your Own Photo Presentation

The photo presentation is a special way of showcasing the life of your loved one. We want to guide you to ensure this memorable part of the service is perfect.

Information To Assist You

As a rough guideline, photos should be on screen **between 4-6 seconds**.

We find it best to keep it within **8 minutes**, so usually no more than **80 photos** (Quality over Quantity).

The length of music chosen should be considered in relation to the amount of images. *Please embed your chosen music into the photo tribute.*

Ensure you design it in a **16:9 widescreen ratio** (landscape).

Please remember to either save or export your presentation as a **.MOV** or **.MP4** format.

WHAT WE SUPPORT

Please provide your photo presentation with your chosen music embedded on a USB, or emailed via *wetransfer.com* as a **.MOV** or **.MP4** format.

WHAT WE DON'T SUPPORT

Our system **does not** support Microsoft Powerpoint. Our team may be able to convert your presentation into a compatible format for a fee.

Test File

Please bring your presentation on a USB to one of our offices or email via *wetransfer.com* by **10am the day prior** to the service to ensure it is compatible in our system.

We are here to help

Please contact our design team if you have any queries or issues and we will try our best to guide you through the process, on **02 4951 1166** or **design@pettigrew.com.au**

Please note, if your presentation does not work, we may be able to convert your presentation into a compatible format. A fee may apply.

If you are finding it too stressful, we can produce a beautiful professional presentation for you. All information and photos are required by 10am the working day prior to the service. Please contact our design team or your Funeral Arranger.
